

JIMCO KPC

UV-C & OZONE

ENVIRONMENTAL FRIENDLY SOLUTIONS..

Remove unpleasant odours..

OZ 1000 & OZ 2000..

not only removes the odour from the air, but also the odour that may remain in fabrics etc...

EU Environmental Award for Cleaner Technology

JIMCO KPC A/S specialises in the removal of nuisance odours using patented UV-C & OZONE technology.

A technology that in 1999/2000 was awarded the EU Environmental Award in the category cleaner technology

- Using this technology any number of nuisance odours are eliminated and the risk of transferring infectious diseases is reduced.

OZ 1000 & OZ 2000 not only removes the odour from the air, but also the odour that may remain in carpets, curtains, walls etc.

Poor indoor climate

Poor indoor climate in rooms where people are present affects their quality of life and health negatively. It may be malodour from garbage, mould fungus, cigarettes, industrial processes etc.

Bad smell may itself cause discomfort, but indoor air pollution is also the source of headaches, respiratory problems, fatigue, muscle tension, asthma, allergy, dry mucous membrane and eye irritation. All these problems affect peoples' working ability and concentration.

Eliminates mould fungus up to 99.9%

Odours can be hard to eliminate

Even in a well ventilated room it may be difficult to remove nuisance odours .

With OZ 1000 & OZ 2000 you can permanently solve any kind of odour problems without using chemicals. Unless the source of the odour is still present. the odour will not return,

Easy to install!

OZ 1000 & OZ 2000 should be installed high in the room – on a bookshelf, wall or ceiling.

Warning !!!

People or animals must not be present in the room or area being treated with OZ 1000 & OZ 2000 .

The OZ 1000 & OZ 2000 are both a good investment...

It is an investment in better personal well-being, better efficiency, increased job satisfaction and less absence due to illness.
